TO WHOM IT MAY CONCERN

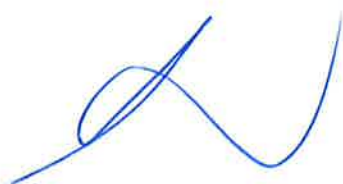

Goldway Cleaning Services have been providing cleaning services to Hitachi Construction Machinery (Australia) Pty Ltd at Cavan since September 2015.

In that time, we have found them to be both reliable and pro-active in the services they provide. Any feedback is dealt with quickly and we have seen a general overall improvement in the appearance of our workplace.

Based on this, I would not hesitate to recommend them to any future clients.

Yours faithfully
